## **EDUCATION**

Kapiolani Community College

Honolulu, HI

Liberal Arts

Graduated May 2024

Chaminade University of Honolulu

Honolulu, HI

Data Science

Current student

## **EXPERIENCE**

**Outlier AI trainer** | Japan (remote position) February / 2025 - Current

- Review and fix some code and Japanese texts to improve the AI
- Provide human-generated code and context for AI
- Record my voice for AI to learn the human voice
- Evaluate and give feedback to other people's work

**Library staff** | Hawaii June / 2023 - May / 2024

- Support people came at the Circulation Desk
- Checking out the laptop, hotspot, books, and textbook
- Organizing bookshelves.
- Assisted customers with questions about facilities and books.
- Conversed with customers and improved communication skills.

**Textbook packing at High School (Kanto International High School) | Tokyo, Japan**  
March/2021 - April/2021

- Packing textbooks into the box
- Managed the textbook requirements for each grade
- Perform general cleaning duties and observe sanitation standards.
- Cooperate with coworkers to achieve the goal correctly
- Conversed with co-workers and supervisor and improved communication skills.

**ADDITIONAL EXPERIENCE**

**Volleyball Team Captain | Japan | 2012 – 2020**

- Competed for 8 years in school volleyball teams, serving as captain in elementary, junior, and high school.
- Led teammates through training, strategy planning, and in-game adjustments.
- Developed leadership, teamwork, and motivational skills while fostering collaboration across diverse groups.
- Gained deep knowledge of volleyball rules, performance analysis, and game strategies.

**Sports Knowledge / Interests**

- Volleyball (I played for 8 years in school, and I still play. Additionally, I also play beach volleyball.)
- Baseball (I have loved watching baseball games since 2012, and I play baseball or softball every weekend.)
- Other sports (I don't play but I watch some sports: basketball, soccer, American football, and golf)

## **Sports Data Analysis Projects**

- Analyzed volleyball competition data (serve, set, attack accuracy by country) using R and ggplot2 to find trends in performance and team ranking for the school's assignment.
- I used Python to track and visualize my personal softball batting performance (hits, line drives, fly balls) to measure improvement and identify areas for growth, purely for my own interest.

## **SKILL**

- Japanese (fluent)
- Communication skills
- Customer service skills
- Team work
- SQL
- Python (Pandas, Seaborn, nvd3, and so on)
- Programming in R (ggplot2)
- Sports Knowledge (Volleyball, Softball, Baseball Analytics)
